

SECTOR

Construction and electrical contractors

We source and quote the electrical package for a build, and we take on the parts a bid did not anticipate, on the schedule the job actually has.

Cable and connectors

- Primary and low-voltage cable
- Compression lugs, splices and terminations
- Structured cabling and fiber
- Sleeving and cable trays

Switchgear and protection

- Breakers
- Fuses and fuseholders
- Disconnects
- Arresters
- Relays

Power on site

- Diesel and gas generator sets
- Transfer switches
- Padmount and pole transformers: send the specification and we search

Site hardware

- Meter cans
 - Poles and line hardware
 - Lighting, brackets and arms
 - Grounding hardware
 - Safety ladders
 - MRO and safety consumables
-

HOW A REQUEST WORKS HERE

Send the takeoff. The lines you need priced, the spec references, and the date the crew needs them on site.

We search. Manufacturer first, then stocking distributors when the schedule needs material now.

Quote and confirm. Price and lead time per line, with alternates flagged where the original is long-lead.

Deliver to the job. Freight to the jobsite or the shop, tracked, with partial shipments where they help the schedule.
