

SECTOR

Utilities and power

We source and quote the transformer and substation parts that utilities, cooperatives, transformer shops and outage groups need, from a single valve to a planned-outage package.

Transformer valves and accessories

- Fault-pressure relay valves
- Drain valves and drain plugs
- Packing kits
- Bronze globe and sampler valves
- Butterfly valves

Dielectric fluids

- FR3 natural ester fluid
- Type II mineral oil

Gaskets and sealing

- Transformer gaskets
- Sealing kits
- Gasket sheet
- O-rings
- Packing

Bushings, gauges and protection

- Bushings
- Tap-changer parts and corona caps
- Surge arresters
- Gauges and rapid pressure rise relays
- Current transformers

Line and substation hardware

- Connectors, compression lugs and splices
 - Poles and line hardware
 - Primary cable
 - Fuses, fuseholders and disconnects
 - Meter cans
 - Lighting and grounding
-

HOW A REQUEST WORKS HERE

Send the requirement. A part number, a nameplate photo, a drawing or a stock number from your storeroom, with quantity and the outage date.

We search. Manufacturer first. If the original is gone, a qualified equivalent, with the difference stated plainly.

Quote and confirm. Price and lead time, with your ANSI and IEEE requirements carried onto the quote.

Deliver to the yard. Freight to the storeroom, the substation or the repair shop, tracked until it lands.
